I am a doctoral researcher at the Centre of Excellence in Music, Mind, Body and Brain at the University of Jyväskylä in Finland. I am broadly interested in studying the neural correlates and mechanisms of music based interventions using (M)EEG and fMRI. Currently, I am examining the role of the somatosensory state in the music listening experience using MEG.

EDUCATION

University of Jyväskylä, Jyväskylä, Finland

Musicology (PhD)

November 2022- Present

Teachers College, Columbia University, New York, USA

Neuroscience and Education (M.S.)

September 2020 - May 2022

CURRENT EMPLOYMENT

Centre of Excellence in Music, Mind, Body and Brain, University of Jyväskylä

Doctoral Researcher

November 2022- Present

RESEARCH EXPERIENCE

Developmental Affective Neuroscience Lab, Columbia University, New York

Research Assistant

June 2021 - July 2022

Shigemoto Lab, Institute of Science and Technology (IST) Austria, Vienna, Austria

Scientific Intern

June 2019 - June 2020

TECHNICAL SKILLS

- **Neuroimaging:** (M)EEG
- **Data Analysis:** MNE Python, CONN, Statistical modelling
- **Qualitative methods:** Thematic analysis, Content analysis
- **Software:** PsychoPy, RedCap

TEACHING EXPERIENCE

Lecturer, University of Jyväskylä, Finland

Music and Neuroscience

September 2024 - December 2024, September 2025 - December 2025

Graduate Teaching Assistant, Columbia University, New York

Cellular and Molecular Neurobiology II: Development and Systems

January 2022 - May 2022

Graduate Teaching Assistant, Barnard College, Columbia University, New York
Systems and Behavioral Neuroscience

January 2022 - May 2022

Graduate Teaching Assistant, Columbia University, New York
Cellular and Molecular Neurobiology I

September 2021 - December 2021

AWARDS AND SCHOLARSHIPS

Semi-finalist in the FORTHEM Researcher's Grand Prix

CNSP Travel Award sponsored by mBrainTrain

Spring 2021 Program Scholarship from the Neuroscience and Education program at Teachers College, Columbia University

OeAD scholarship for the 'ISTernship' program at IST Austria

CONFERENCE PRESENTATIONS

Poster presentation at the Federation of European Neuroscience Societies Forum '26 (Spain): The Effects of Vibroacoustic Stimulation on the Music Listening Experience: An MEG Study

Poster presentation at the Annual Conference of Cognitive Science '25 (India): An Exploration of the Effect of Vibroacoustic Stimulation on the Music Listening Experience: An MEG Study

Poster presentation at the Triennial Conference of the European Society for the Cognitive Sciences of Music '25 (Online): The Effect of Vibroacoustic Stimulation on Relaxation during Music Listening in Healthy Adults

Poster presentation at the International Conference of Students of Systematic Musicology (SysMus) '25 (Online): Exploring Music Making in Everyday Lives through a Grounded Theory Study

Poster presentation at The Future of Music and Arts in Medicine and Health conference (Berlin) '24: The Effect of Vibroacoustic Stimulation on Relaxation during Music Listening in Healthy Adults

Oral presentation at the International Conference of Students of Systematic Musicology (SysMus) '24 (Jyväskylä): Face the Music: Piloting an EEG Study on Clinical Improvisation

LEADERSHIP AND ORGANISATION

Organizing Chair of SysMus '24 at the University of Jyväskylä

Served in the scientific committee for SysMus '24, SysMus '25 and Musiconnex '26

Member of the SysMus Council
